Bringing Us Down

Les Savy Fav

Youre Bringing Us Down
Youre Bringing Us Down
Youre Bringing Us Down
Hear the symphony in the five man band
Trying to sympathize but you cant understand
Set my mind to interbarometer
Move so slow from desk to dresser
It fell down without a sound
It took five years just to get down
Who put up the flag?
We havent got a door yet
If they storm the fort tonight leave the pistol by your bed
We have jeopardized our situation
Disengage the ammunition
We are on a mercy mission
Bringing Us Down
Who put up the flag?
We havent got a door yet
If they storm the fort tonight take the pills beside your bed
Jeopardized our situation
Disengage the ammunition
We are on a mercy mission
Take away the golden epaulettes
From the fallen dead cadets
Lets arrange it as their epitaph
Throw the bodies in the acid bath
Drag the sea coast and go for the gusto
The man with the plan said the foreman must go
If the chief dont fight let the chief go ahead
The squad and the scout will stay in bed
If the chief says jump Ill say not I
If the chief says jump Ill say how high?
