She Won't Be Home

Erasure

She looks around
There are snowflakes on the ground
Here comes another lonely Christmas
Stars in the night
There is one there shining bright
Shine bright for me this lonely ChristmasAnd I wanted to say to you
How much I want to be with you
I wanted to say to you
How much I need to be with you
Christmas time comes once a year
She knows this time he won't be nearShe phones her mom
(Hello)
Says this time she cannot come
Don't worry I'm with friends this Christmas
(Ooh la la la)Dad gets upset
But in time he soon forgets
Here comes another lonely ChristmasAnd I wanted to say to you
How much I want to be with you
I wanted to say to you
How much I need to be with you
Christmas time comes once a year
She knows this time he won't be near(Ooh la la la)
I wanted to say to you
(She won't be home)
How much I want to be with you
(This Christmas time)I wanted to say to you
(She won't be home)
How much I need to be with you
(This Christmas time)I wanted to say to you
(She won't be home)
How much I want to be with you
(This Christmas time)I wanted to say to you
(She won't be home)
How much I want to be with you
(This Christmas time)I wanted to say to you
(She won't be home)
How much I want to be with you
(This Christmas time)I wanted to say to you
(She won't be home)

How much I want to be with you
