Island

The Starting Line

Let's sail away
Find our own country
We'll build a house and beds out of palm trees
Let's get away
Let's push our lives aside

I'll sport a smile
Take in some color
Under the stars
I'll be your lover
With no distractions I'm gonna treat you right

Well it seems like things are only getting better
Well it seems like we can never catch a break

[Chorus]
Just a keep a hold on me don't let go
If you float away, if you float away
Waiting too long for a ship to come
Don't you float away, don't you float away

Let's go to bed
Let's stop debating
Look at the time
We're always waiting
But we're in love
And that should be just fine

Well it seems like things are only getting better
Well it seems like we can never catch a break

[Chorus x2]

And if you like (and if you like)
and if you like some other time
I would like to introduce you to the finer things
If we survive (if we survive)
If we survive, get out alive
I'd like to say how beautiful I think you...

[Chorus]
