

Monster

Tristen

I will promise not to rain on you with fire
I will rain only to keep you from the heat
I can't promise that you'll live this way forever
There's a monster in my back seat
Always driving me insane
He's got damage to complete me
There's a monster in my back seat
There's a monster in my back seat
I will offer up my arms to bring you justice
Don't be scared, it's just the beast of enemy
Don't you listen to a word the truth is telling
There's a monster in my back seat
Always driving me insane
He's got damage to complete me
There's a monster in my back seat
There's a monster in my back seat
I will lay down at the feet of those who harm you
I will render a repeat of amnesty
But I won't bargain with a brutal acquisition
There's a monster in my back seat
Always draining my refrain
He's got damage to complete me
There's a monster in my back seat
There's a monster in my back seat
There's a monster in my back seat
There's a monster in my back seat
There's a monster in my back seat
There's a monster in my back seat
There's a monster in my back seat
