

Beautiful

Moby

Come on baby

Come on girl

Come on baby

Come on girl

I love you baby

I love you now

I love you baby

I love you now

Look at us, we're beautiful

All the people push and pull

But let's just go out and ride

Talk about the things we try

Look at us, we're beautiful

All the people push and pull but

They'll never get inside

We've got too much to hide

Come on baby

Come on girl

Come on baby

Come on girl

I love you baby

I love you now

I love you baby

I love you now

Look at us, we're beautiful

All the people push and pull but

Let's just go out and ride

Talk about the things we try

Look at us, we're beautiful

All the people push and pull but

They'll never get inside

We've got too much to hide

Look at us, we're beautiful

All the people push and pull but

Let's just go out and ride

Talk about the things we try

Look at us, we're beautiful

All the people push and pull but

They'll never get inside

We've got too much to hide
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful yeah
Look at us we're beautiful yeah
Look at us we're beautiful yeah
Look at us we're beautiful yeah
Look at us we're beautiful yeah
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
