SupernaturalLookin' for that big honey

Youll find only in a dream

I searched around and still cant find her

[Unverified] to extremeTurned around, she caught my eye

Tell me, am I seein' things?

Just might be imagination

[Unverified] and hauntin' meThis woman

(Supernatural)

The way she looks

(Supernatural)

The way she moves her body

(Supernatural)

Everything about this honey is so supernatural

SupernaturalAs I watch her move in closer

Perfect beauty she exceeds

Never question Mother Nature

Shes an angel without wingsHer extension fills my body

I reach out to hold her hand

Tried to grab it, cant get a handle

The girl is gone, she was never here This woman, yeah

(Supernatural)

The way she looks

(Supernatural)

The way she moves her body

(Supernatural)
