

# Born On the Sun

Dio

There's a crack in the rainbow  
There's a hole in the sky  
You believed in something  
Now it's just a lie, yeah No jokes from the jester  
Not a laugh from the clown  
And your world is upside down, yeah You can hide in a circle  
It's a way to survive  
Be another number  
At least you'd be alive Or you can ride with the gypsy  
He can take you to hell  
And the answer's screaming  
In a voice you know so well You, you're made of fire  
Never higher  
You were made to run You, you're burning higher  
You've got the fire  
You were born on the sun  
Get ready to run So take a walk with the wild one  
It's the way that I've found  
You can turn it upside down You, you're made of fire  
Never higher  
You were made to run You, you're burning higher  
You've got the fire  
You were born on the sun You, you, you, oh you, hey you  
You were born on the sun
