

# 24 Hours At A Time

## The Marshall Tucker Band

I've been down around Houston Texas  
Where the sun shines most of the time  
I've been drivin' about six hours  
Tryin' to reach that Arkansas line But Texarkana is an hour ahead  
And I've got to keep my wheels rollin'  
But woman you're always on my mind  
Twenty four hours at a time  
So my woman, I'm hoping you feel the same way Woman you know that I miss you  
And I can't miss you no more  
I got this ride doing seventy miles an hour  
She's loaded she's down to the floor But I've got to reach that Arkansas line  
Before the sun goes down, yeah  
But woman you're always on my mind  
Twenty four hours at a time  
So my woman, I'm hoping you feel the same way Woman you know I need you  
I've been on the road too much  
Tired of looking at the highway  
Got to keep in touch some way I've been down around Houston Texas  
Where the sun shines most of the time  
I've been driving about six hours  
Tryin' to reach that Arkansas line But Texarkana is an hour ahead  
And I've got to keep my wheels rolling  
But woman you're always on my mind  
Twenty four hours at a time  
So my woman, I'm hoping you feel the same way  
Feel the same way, feel the same way Feel the same way  
Feel the same way  
Feel the same way  
Feel the same way
