

# Come Stay With Me

## Marianne Faithfull

I'll send away all my false pride  
And I'll forsake all of my life  
Yes, I'll be as true as true can be  
If you'll come and stay with me Lovers of the past I'll leave behind  
There'll never be another on my mind  
I'll do all I can so you'll feel free  
If you'll come and stay with me The promises I made most faithfully  
I'll keep still should you decide to leave  
I'll try and see that you have all you need  
If you'll come and stay with me We'll live a life no one has ever known  
But I know you're thinking that I'm hardly grown  
But oh thank God, at last and finally  
I can see you're gonna stay with me But oh thank God, at last and finally  
I can see you're gonna stay with me
