# You're In Trouble

## Ratt

We're fast as lightnin' and the gun
Your shadow's got you on the run
You're such a fighter, I said, "You're the one"
And I will only tell you onceYou're in trouble, what are you gonna do?
You're in trouble, it's what you're goin' through
Goin' throughYou're such a teaser and give me life
I live in jungles and live with knives
There's always trouble on your mind
And won't you meet me and draw the lineAnd that's the price you pay to lie
You wanted trouble, you tell me, why?
We're gonna get you, what ya gonna do, do, do
We're gonna get you, what ya gonna do?You're in trouble, what are you gonna do?
You're in trouble, it's what you're goin' through
Goin' through, yeahYou're on the top, top, the top
Well, top of the nightYou're in trouble, what are you gonna do?
You're in trouble, it's what you're goin' through
Goin' throughYou're in trouble, in trouble, I got a finger on you
You're in trouble, it's what you're goin' through
You're in trouble
