

Drive

Melissa Ferrick

If you want this
If you want this
If you want this you're gonna have to ask nicely
Yeah if you want this you're gonna have to ask
 You're gonna have to ask me
 What ever you want I'll give it to ya
I'll give it to ya slowly 'til you're just beggin me to hold you
 Yeah what ever you want
 What ever you want but you're gonna have to ask me

Cuz your mouth waters stretched out on my bed
Your fingers are trembling and your heart is heavy and red
 And your head is bent back your back is arched
 My hand is under there holding you up

I'll hold you up and drive you all night
I'll hold you up and drive you baby 'til you feel the daylight
 I'll hold you up and drive you all night
I'll hold you up and drive you 'til you feel the daylight that's right
 That's right

In the kitchen in the shower in the back seat of my car I'll hold you up
 In your office preferably during business hours
Cuz you know how I like it when there's people around
 And I know how you like it
 I know how you like it
I know how you like it when I tease you for hours

 Your mouth waters stretched out on my bed
 Your fingers are trembling and your heart is heavy and red
 Your head is bent back and your back is arched
 My hand is under there holding you up

I'll hold you up and drive you all night
I'll hold you up and drive you baby 'til you feel the daylight
 I'll hold you up and drive you all night
I'll hold you up and drive you 'til you feel the daylight oh and this has just begun
 And this has just begun cuz we haven't even gotten started yet
 I haven't even
 I haven't even tied you up I haven't even turned you over

This is where I wanna live
Right here right between your hips
Where all the love you hold hide it's where it is
Right here right between your hips this is where I wanna live
It's where all the love you give exists

Your mouth waters stretched out on my bed
Your fingers are trembling and your heart is heavy and red
Your head is bent back your back is arched
My hand is under there holding you up

I'll hold you up and drive you all night
I'll hold you up and drive you baby 'til you feel the daylight
I'll hold you up and drive you all night
I'll hold you up and drive you baby 'til you feel the daylight that's right
Yea that's right that's right that's right I'll hold you up
That's right I'll love you all night yea that's right that's right
