

# Victim

## One Way System

feeling numb, nearly dead  
no more left is what they said  
all fucked up we're all used  
another cabbage has blown a fuse  
victim victim they've made a victim  
victim victim another victim  
victim victim he's now a victim  
victim victim they've made a victim  
his own habit screwed him up  
nobody cares it's his bad luck  
nobody goes to see him no more  
they've locked the door room 10 ward 4
