My Town

Manic Depressors

This is my town
It's my town
It's my town
It's my town
This is my town
It's my town
It's my town
It's my town
This is my town
Yo, fuck this scene
Hit the strip, get my picks
Got some sniffles in the sack
Run this town like a spinner on a track
Come on, laid back
Two attack in the leg
We ain't cutting no slack
Girl, what you know about that?
I ain't tryna be a lover but I gotta say
That we could keep it undercover
When you wanna play
Waist up, smoked out outta my mind
We just cruise around my town all the time
When the sun goes down
The stars come out like the ghost of yesterday
So drink 'em down
'Cause some things never change
Baby, sing and get loud
We ain't gonna fuck around
When the sun goes down
Let me hear you say
This is my town
It's my town
It's my town
It's my town
This is my town
It's my town
It's my town
It's my town
This is my town

If the city never sleeps
Then fuck it, neither will I
You know we keep it thirty deep
And we're as high as the sky
You can watch us, thirty creep us
We just ride and we ride
You can watch the fiesta drop
From one side to side
We're breaking the boulevard
'Cause we get it better
Whenever you need to find me
Bitch, you can send me a letter
Forever drunk and disorderly
All this vodka I'm pouring me
Goddamn, and I want it all
My city of glory
When the sun goes down
The stars come out like the ghost of yesterday
So drink 'em down
'Cause some things never change
Baby, sing and get loud
We ain't gonna fuck around
When the sun goes down
Let me hear you say
This is my town
It's my town
It's my town
It's my town
This is my town
It's my town
It's my town
It's my town
This is my town
The streets you walk
Give you a reason
'Cause it's all you got
And that'll never change
So keep singing that song
And we can live forever
One little laugh for the ones
Who passed away
When the sun goes down
The stars come out like the ghost of yesterday
So drink 'em down
'Cause some things never change, change

Baby, sing and get loud
We ain't gonna fuck around
When the sun goes down
Let me hear you say
This is my town
It's my town
It's my town
It's my town
This is my town
It's my town
It's my town
It's my town
This is my town
