

Skin and Bones

Jet

I'm gonna ask you so you understand
What you done with your time
Oh, think it over, baby, just keep walking on
Until you find your manDon't it feel so bad?
Well, I'm used to that
And don't it feel so bad?
Get used to thatDon't push it, baby
Baby, please don't go too far
I swear I love you
Just the way you areAll this justice in my hands
And what you done with your time?
I could stand it if I just keep breathing
What you done with your time?Don't it feel so bad?
Well, I'm used to that
And don't it feel so bad?
Well, get used to thatDon't push it, baby
Please don't go too far
I swear I love you
Just the way you areSkin and bones, baby
Yes, you are my star
I swear I love you
Just the way you areDon't push it, baby
Don't push it, babyDon't push it, baby
Please don't go too far
I swear I love you
Just the way you areSkin and bones, baby
Yes, you are my star
I swear I love you
Just the way you areDon't push it, baby
