

# Bloodshed

## Soulfly

Fire, the burning path  
Downstroy the weak minds  
Rising nature's demise  
Enslave system creation Everywhere is bloodshed  
Wasteland bloodshed  
Everywhere is bloodshed  
Wasteland bloodshed  
Bloodshed wasteland  
Bloodshed wasteland  
Bloodshed Life, ravage skullduggery  
Rage, dethrone the enemy  
Die treacherous leprosy  
Scorn the self inflict Everywhere is bloodshed  
Wasteland bloodshed  
Everywhere is bloodshed  
Wasteland bloodshed  
Bloodshed wasteland  
Bloodshed wasteland  
Bloodshed This is my redemption  
Strangling superstitions  
This is my conception  
Condemned for eternity Blood of the lamb touching the empty void  
Slowly eats my soul  
Drag down the black hole Join the cult of dark hope  
Swarm of deadly locusts  
Beware of the prophecy  
Rulers of reality
