

Over & Over

Moloko

No, I wont interfere
Im the only sound youll ever need to hear
Listen to my breath so near
Allow me to be every noise in your ear Since that day I wake up early
Every morning which is good
But my stomachs churning, call me
It would be nice if you could Some days I question the suggestion
You might not exist at all
Can we meet and talk it over?
Would you be kind enough to call? Over and over, its over all over
And over and over and over and over
And over and over, its over all over
And over and over and over and over and No, theres no middle ground
Your off in another story or merry-go-round
No, therell be no measured terms
You fly in the face of the way the world turns Like a frozen tidal wave
Since that day Im standing still
You brought me here and I accept
Though you regret I never will Just one sweet word
And then a smile from you
Is almost worth everything
Ive given all I had to give
But you gave up giving in You are everywhere I go
All the places we have been
I cant imagine where you are
For you are all Ive ever seen Over and over, its over all over
And over and over and over and over
And over and over, its over all over
And over and over and over and over and Over and over, its over all over
And over and over and over and over
And over and over, its over all over
And over and over and over and over and Over and over, its over all over
And over and over and over and over
Over and over and All Ive ever known
All Ive ever seen
Places that I go
Places that weve been
