# Free Thought

## Under The Weather

Don't live fearing or fighting for a meaning
We're not suppose to knowE-V-O-L-U-T-I-O-N
is my solution to answers
your bible calls a sin
It's evolutionFree thought's not bought
and if you stop and think
That's why they're not selling it (to you)Don't give in or give up on understanding
'cause that's all we gotHope helps us to breathe and find our way
through evolution the color of hope
beats a world of grey it's my solutionGod don't know what I'm feeling
And I'm not scared to face life all on my ownAnd the lord says think not for yourself
close thy mind & with generous donation
you shall gain generous salvationShow me your god I'll show you my mine
We can pretend we're all gonne win
Life is a joke where noone laughs at the end
so why are you so scared
