Shadow Tears

Donald Cumming

You may think
You're something special
For walking out the door on me
You may think I won't forget you
Don't be confused by what you seeI may look strange to you
Allow me to explainIt's just the rain
Falling down my window
It's just the rain
Falling down my window
And making
These shadow tears
Making
These shadow tearsYou may hear
That I've been lonely
Ever since you left the floor
Don't come running to console me
I ain't crying anymoreIt's just the rain
Falling down my window
It's just the rain
Falling down my window
And making
Shadow tearsI may look sad to you
I'm happy to explainIt's just the rain
Falling down my window
It's just the rain
Falling down my window
And making
These shadow tears
Making
Shadow tears
