

Ship of Fools (Live In Boston 1970) [1st Show]

The Doors

The human race was dying out
No one left to scream and shout
People walking on the moon
Smog will get you pretty soon Everyone was hanging out
Hanging up and hanging down
Hanging in and holding fast
Hope our little world will last Along came Mr. Goodtrips
Looking for a new ship
Come on people better climb on board
Come on babe we're not going home Ship of fools
Ship of fools The human race was dying out
No one left to scream and shout
People walking on the moon
Smog gone get you pretty soon Ship of fools, ship of fools
Ship of fools, ship of fools
Ship of fools, ship of fools, ship of fools Climb on board
Ship's gonna leave you all, far behind
I gotta farm house for you
Ship of fools, ship of fools
Ship of fools
