First Time

See, normally a brother wouldn't talk about his first time
But I will just be real with y'all and say what's on my mind
I remember like yesterday, just a little man
I have no clue just quite didn't understandLooked up to big bro for a little advice
He said, "Young bro, whatever you do, just make sure you strap twice"
I was a little nervous about it being my first time
But I said, "What the hell, this girl is too damn fine"My very first time
In the house, on the couch, in your parents' bedroom, remember
My very first time
I can't wait 'til the day when I see you again, rememberMy very first time
It was just as special to me as it was to you girl
My very first time
I will never forget my first timeSee it was Sunday afternoon, moms and pops were gone
We had to be on the low 'cause they were on their way home
We started kissin' then it led straight to the bed
I can't believe this is happenin' is what I'm thinkin' in my headLasted like a minute but it seemed like forever
We almost got caught but I'm just too damn clever
Your parents came home from church
And I was outta there like a drop of a dime
Man, I will never forget my first timeThis goes out to the first do you know
Who you are, I will I see you again
(See you again)
And no matter how old we both get no regrets
I'll never forget my first timeMy very first time
In the house, on the couch, in your parents' bedroom, remember
My very first time
I can't wait 'til the day when I see you again, rememberMy very first time
It was just as special to me as it was to you, girl
My very first time
I will never forget my first timeSee some of you might've started early, some of you started late
But I know when I started and I thought it was great
This goes out to all my little brothers in the world

Make sure your first time is with that special girlClap your hands if you remember
(Clap your hands)
Your first time, your first time
(First time, first time)
Clap your hands if you remember
(Clap your hands with me)
Your first time
(Your first time)
Your first time, babyMy very first time
In the house, on the couch, in your parents' bedroom, remember
My very first time
I can't wait 'til the day when I see you again, rememberMy very first time
It was just as special to me as it was to you, girl
My very first time
And I will never forget my first timeMy very first time
In the house, on the couch, in your parents' bedroom, remember
My very first time
And I can't wait 'til the day when I see you again, rememberMy very first time
It was just as special to me as it was to you, girl
My very first time
I will never forget my first time, and I will never forget
And I will never forget my first time
