Hoodoo Man

Eric Clapton

Well, I wonder, what's exactly the matter
Child you know the time
Seemed like an hour
Everything had changed
But I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man
Well now, I buzzed your bell this morning
You had your elevator run slow
I buzzed your bell in, woman
Take me on the third floor
Well, I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man

Well, I buzzed your bell this morning
You had your elevator run slow
I buzzed your bell in, woman
Take me on the third floor
I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man
Well, I wonder, what's exactly the matter
Child you know the time
Seemed like an hour
Everything had changed
I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man
