

# I'd Wait for Life

## Take That

There's a place we used to be  
There's a face that I used to see  
There's a picture with you by my side  
There's a moment that I wanna find I don't know where to start or how to begin  
But I know, I love you still If you ever turn away, if you ever change your mind  
If the road ahead becomes too hard to climb  
If there's something in your heart that tells you to stop  
Oh, to hold you close tonight, I'd wait for life There's a voice shouting inside my head  
There's a space on your side of the bed  
There's a hope every time there's a sound  
There's a silence that's playing too loud I don't know where you are or how you may be  
But I know, I love you still If you ever turn away, if you ever change your mind  
If the road ahead becomes too hard to climb  
If there's something in your heart that tells you to stop  
Oh, to hold you close tonight, I'd wait for life If I close my eyes  
I'll dream a little deeper, baby  
'Cause you are always on my mind  
Yeah you are always on my mind for life If there's something in your heart  
That tells you to stop  
Oh, to hold you close, yeah  
Oh, to hold you close tonight, I'd wait for life I'd wait for life
