

Ginny

Muscadine Bloodline

Ginny

I know you don't miss me
But it don't come that easy
For me to move along

Memories

Of the last time you kissed me
Has got me drownin' in the whiskey
Bartender keep em comin' strong I wish you woulda let me down slow

So I could just let you go
Girl I just want you to know
I feel like you're doin' me wrong
Wish I woulda read all the signs
Like when your smile lost it's shine
I ain't got much to call mine
Now that you're gone

Ginny

When I strum on my six-string
I can still feel your heartbeat
Playin' these songs about you, oh I wish you woulda let me down slow

So I could just let you go
Girl I just want you to know
I feel like you're doin' me wrong
Wish I woulda read all the signs
Like when your smile lost it's shine
I ain't got much to call mine

Whoah, now that you're gone, whoah Oh, ??? way I keep getting

'Cause Ginny I ain't over you
So I just sit here and have me a few
And I realize

Wish you woulda let me down slow
So I could just let you go
Girl I just want you to know
I feel like you're doin' me wrong
Wish I woulda read all the signs
Like when your smile lost it's shine

I ain't got much to call mine
Oh, now that you're gone
