

# Giggles

## Fugees

Aiyyo somethin' funny somethin' got you caught up in digs  
It's me why you wanna pimp with today  
Two made from the boy yeah  
Now helpless he's tryin' 'cause he full of giggles  
You gonna need more than an iron  
To stretch out ya wrinkles  
You startin' so ordinary and me map me out for sprinkler  
You got the fever for the flavor for the giggles  
Who got the giggles is the jam of December, hey  
I remember we release specifically  
Back in grammar school days it's me the E's M T  
Totally and directly wonder more than too fresh and nuttin' really else today  
It was my accent and where I came from that ya really hate  
The 'N' wear Levi's, Pumas, struggle Adidas  
Some say I'm with the losers 'cause I didn't have the ladies  
No R E F P's, the T as we can't get no punanny definitely hittin' them daily  
No I roll with the squad that's so hard and makes  
You wanna catch an erection, relax man  
I don't allow you to put out actin' on if the one's direction  
So it's Pete prop yo what's up man, hah  
So if ya were thankful then I see 'cause the paper  
Gettin' murderin' like the a lovin' now the news Rodney King is  
Now with the double list comin' through your speakers  
Remember durin' steebers why don't you get your speakers teetered  
Who got the giggles?  
You got the giggles, they got the giggles  
Everybody got the giggles  
Who got the giggles?  
You got the giggles, they got the giggles  
Everybody got the giggles  
Now ya wanna be down you come around  
Touch gun of the town you gotta dig my sound  
It seems like everybody's jumpin' on the bandwagon  
Her money grabbin' a chick is a suburban dragon  
I wasn't all of that rappin' but this is now  
What's the matter? Ya milkin' like a freakin' cow  
Cat guns yo' Tennessee, here kitty, kitty, kitty  
Here pussy, pussy, pussy, pussy cat

You start to smell like one all you really are was the head

I wanna give a shout out to those who try and curse  
My fave for balackin' gat you were funny though shall, shall,  
Leave the play down these are the things we can do without, huh

So what's this all about man?

Just when I thought I was chillin' with my Lee's  
And my fellas seeds and my pro kicks  
My style was so deaf 'Thuggin' won't even make it fresh' he said  
So now I need my tracks that 'Bite neck' Fred  
It's that ya mess with it's just stitches that I thread  
Loadin' the clip for go twenty four carat lead  
Her double days puttin' 'G' at her head rapow, you're dead

Who got the giggles?

You got the giggles, they got the giggles

Everybody got the giggles

Who got the giggles?

You got the giggles, they got the giggles

Everybody got the giggles

Who got the giggles?

You got the giggles, they got the giggles

Everybody got the giggles

Who got the giggles?

You got the giggles, they got the giggles

Everybody got the giggles

You ever havin' the giggles to the huh

The hiccups the kinda hiccups

That makes ya wanna come up

In your face and throw up you're totally smuck

You feelin' dirty and quitter you neither or either a home or hitter

Much more like Peter but couldn't beat her pick

Caught in the middle with the rhythm, you're feelin'

Wish she trippin', you'll be livin' with the aha, the giggles

Who got the giggles?

You got the giggles, they got the giggles

Everybody got the giggles

Who got the giggles?

You got the giggles, they got the giggles

Everybody got the giggles

Who got the giggles man? Who got the giggles man?

Who got the giggles man? Everybody got the giggles

...
