David A. Saylor - [Kiss Of Judas]
Ana
Ana

The first time I saw You
I knew You were the one
I thanked the lord above

(Though) We had nothing in our pockets
(yet) we both survived on dreams
carried bag our love

now We know that our love was the cure
and that we always held the key
it was You and Me

Ana
You're the only one I live for baby
to me You're everything
you're the one
Ana
You and I together that's forever
my life has a meaning now
now that I'm with You

Ana You konw that times were hard
and that our age and didtance were
our worst enemy

but in the end we found a way
to make it through the rain
and now our love can be
Now that we know

now We know that our love was the cure
and that we always held the key
it was You and Me

Ana
You're the only one I live for baby

to me You're everything
you're the one

Ana
You and I together that's forever
my life has a meaning now
oh Ana

SOLO

That's forever

Ana
You're the only one I live for baby
to me You're everything
you're the one

Ana
You and I together that's forever
my life has a meaning now
it has meaning now
now that I'm with You
