

Secrets In the Dark (Alex Kenji Remix)

[Chris Lake](#)

Secrets in the dark playin' really loud,
hold my further, squeeze my hand, lead me to the sound, yeah this one's for you and this one's for me,
I can hear it clearly and I wanna stay Secrets in the dark, playin' trough my heart,
make me feel alive again, take me to the start,
make me lose my mind, make it lose your soul,
I can hear it clearly and I wanna go Lead me in the dark, blinded of a walk,
guide my hands along the walls, hear the music talk,
yeah that one's for me and this one's for you,
I can hear it clearly and I wanna stay
