Improper Dancing

Electric Six

Every body's doin' what they shouldn't be doin'
Every body's doin' it in the middle of the street
Every body's movin' what they shouldn't be movin'
Every body's moving it in the middle of the street
Improper dancing in the middle of the street
Improper dancing in the middle of the street
Improper dancing in the middle of the street
Somebody better notify the chief of police
Every body's freakin' who they shouldn't be freakin'
Every body's freakin' in the middle of the street
Every body's showin' what they shouldn't be showin'
Every body's showin' it in the middle of the street
Improper dancing in the middle of the street
Improper dancing in the middle of the street
Improper dancing in the middle of the street
Man those ppl must have demons livin' in their feet

And I want to reach into the fire of your heart
I want to program all those beats right from the start
Have you ever been to New York City?
And music starts to play bodies start to sway
(Play, sway)
Debbie Lee's the DJ in the middle of the street
Beats are droppin' bodies rockin', hearts are stoppin' electric shockin'
I can't believe what I am seeing in the middle of the street
Improper dancing in the middle of the street
Improper dancing in the middle of the street
Improper dancing in the middle of the street
Somebody better notify the chief of police
Stop
Continue
Yes
