True North

Eric Zayne

Once I was a fool
Living selfishly
Always running from love
and everything good for me, yeah
But then you appeared
like a light in the sky
lifted me from these grounds
now I never want to come downWhen people ask I tell them that you
you stole me away
like a thief in the night
You showed me your constellation
and the love that spins it aroundI think I found a star
that leads me back baby baby
A star that takes me back home
You're my star
my true north lady
You take me so far
but with you I'm homeStaying out late
'till the sun came up
chasing emptiness
always testing my luck
Heard the stories of love
but they were not for me
until you struck me down
like lightning on my kneesYeah you should know that you
took a hole out my heart
like a beautiful song
You lifted me from gravity
and showed me where I belongedI think I found a star
that leads me back baby baby
A star that takes me back home
You're my star my true north lady
think that I'm crazy for you
You take me so far
but with you I'm homeIf someone sees my mother
tell her I'm doing just fine
'Cause I was just a shadow
now I see the light
Never knew it could happen to me

Feels like I'm living someone else's dream
Since you took me out of this world and into your heartThink I found a star that shines over me
You're my star my true north lady
Think that I'm crazy for you
A star
Let's leave this place I want to go with youTake me on your planet
Beam me on your ship
Show me the ways of love I never knew could exist
Oh show me the truth
Cause I belong to you
This is our love song our love song
Our intergalactic love song
