

Love Meeting Love

Level 42

Ooh summer nights, making love
Together we're as one in loves light
We have found our way through another day
So tonight we'll stay
Drunk on loves sweet wine
Heaven yours and mine
Love meeting love
Sweet lady take my soul
And keep me in this place through the night
Hold me in your arms and take me in
And we'll start again
Put flame to the fire
Set free our desire
Love meeting love, yeah, yeah
And floating lost in love
Your body soft and warm next to mine
Time is standing still for you and me
So silently
Talking with our eyes
Knowing no goodbyes
Love meeting love, yeah, yeah
