

Face to Face

Cris Cab

[VERSE: 1]

Staring at the crowd when you caught my eye

Time slowly ticking as I keep on standing by

Baby, If I eyes we can already know

I'm already thinking of another place to go

There's a lot of people in a trance tonight

Playing all the games trying to make you mine

Getting even closer to the finish line

Looking over here, I can give you a sign[HOOK]

Yeah, I'm going to take you to another place

Yeah, Yeah

Yeah, so you and I can meet face to face

Yeah, Yeah

There won't be no problems

You, me and the comets

Nobody will find us

Yeah, Yeah

Yeah, so you and I can meet face to face[VERSE: 2]

People see you staring thinking falling in love

There always watching and eyes just can't get enough
