

# Love, Love, Love

## Webb Pierce

Sometimes I cry when you don't call  
I'm beginnin' to think you don't love me at allBut you are still my, baby  
I want the whole world to know  
I just love, love, love, love, love you, love you soFriends are tryin' to tell me  
That I'm just a fool  
Your love don't mean a thing  
But I keep hopin' someday  
If you'll see same things my way  
You'll make the weddin' bells ringThen I'll have you to keep me gay  
We'll be alone both night and daySo tell everybody  
I want the whole world to know  
I just love, love, love, love, love you, love you soLife's just too short to fuss and fight  
If you'll trust in me, well, I'll treat you rightSo tell everybody  
I want the whole world to know  
I just love, love, love, love, love you, love you soFriends are tryin' to tell me  
That I'm just a fool  
Your love don't mean a thing  
But I keep hopin' someday  
If you'll see same things my way  
You'll make the weddin' bells ringThen I'll have you to keep me gay  
We'll be alone both night and daySo tell everybody  
I want the whole world to know  
I just love, love, love, love, love you, love you so  
I just love, love, love, love, love you, love you so
