

To Know

Jackson 5

To know of life is to know what I'm living for
Touch my hand, and baby I'm yours
To know of love is to know that I live for you
To be in love is to be there with you
Everyday means so much to me
But it all depends on you
Don't you know, oh baby, we were meant to be?
Oh, and life for me begins and ends with you
To know you're mine is to know how it used to be
Yesterday is all I can see
That's how I know life can be beautiful
But it all depends on you now that you're gone, baby
Since you've been gone
Just not the same, baby
Since you've been gone
Just not the same, baby
To know of us is what I'm still living for
But it all depends on you
Baby, it all depends on you
To know happiness is to know you're here in my arms
(Baby come home)
Let me know, let me know, let me know
What it is to live again
Baby, come home, home
Baby, come home, home
Baby, come home
