# Somewhere In The World

## Decibully

Time, changer of seasons
Time will see another flower growing
Climb over the mountains
There you'll find warm winds blowing
Somewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this world
I cannot believe it
Everywhere I see lonely faces
Why have we no answers?
Just some more empty places

Somewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this world
Time, changer of seasons
Time will see another flower growing
Climb over the mountains
There you'll find warm winds blowing
Somewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this world
