Candy

Immature

Your love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever needYour love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever needLook at me, acting like a child
I can't keep this smile off my face
It's been awhile, since I felt your warm embrace
Tonight I'll love awayYou got that something when you pour it on like rain
It's sweeter than a candy cane, just keep it comin'
'Cause you know I like the way
Girl, you make me sayYour love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever needYour love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever needCarefully, I put your hand in mine
As you take me to the special place
With your style, you know you drive me wild
In your arms I want to stay, forever and today, day, ay, ayYou got that something when you pour it on like rain
It's sweeter than a candy cane, just keep it comin'
'Cause you know I like the way
Girl, you make me sayYour love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever needTaste it and see how good our love could be
Take it and be all the around 'til ecstasy
Totally you for me and me for you
I've got to have my candyYour love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever needYour love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever needYour love is sweeter than candy
Keep swingin' it my way
That's the only love that I will ever need
