

Life (feat. Curren\$y)

Young Roddy

Life, you know
Life
Life, you know
Life,
Life, you know
LifeUh, yeah street chemist
My eyes it's my limit
And I'm allergic they hate don't bring that at me
I better.. one know no hands could feel me,
You feel it, let's go weak, we smoke penni,
It's f*ck the road when no jimmy sincerely,
Yeah my choice an engine is a henny
On the road to the riches but I don't think they hear me,
Fuck em they..
But I'll be damn if I get the lake
Without the second a waste I brought the Rolex watch
From my time, I shot time I got it locked,
Don't push his..pop a pistol than box,
Spit a call, told me..it meant a lot,
And my girl say I'm the realest..they not,[Chorus]
They say life is what you make it,
Everything that I earn I had to take it
When I die bury me with big faces,
But right now I'm on the grind and I'm gone places.They say life is what you make it,
Everything that I earn I had to take it
When I die bury me with big faces,
But right now I'm on the grind and I'm gone places.You know what it is soon as you hear the sound
Of my voices mingle bitch is going down
Self making yeah I earn my crown
They was snoozing all my lingle bet they hear me now
..move around gone check my status
I keep it cooli on these hoes, I ain't with the madness,
I'm too focused on a come up love I gotta have it,
We in the good with the vein tryin to find my balance,
They say I din't make it, I stood up to that challenge
Mingle..I'm self managed, always thinking of way to get paid and manage..
Only good in my lungs out the man that
Kill the kush anything less you can have

On my way to get the sack, I'ma pass that[Chorus]
