

# Song Away

## Hockey

Make me a deal and make it good for me  
I won't get full of myself, 'cause I can't afford to be  
This is small town music, this is big town music  
He's ahead of his time you know but, he can't use it  
If only he could prove it Well, tomorrow's just a song away, a song away, a song away  
Oh, tomorrow's just a song away, a song away, a song away  
It's just a song away Hey, see what your man has done to the world  
See what the world has done to your man  
You know I'm leaving you, you don't need me  
Loving you wasn't always so easy This is believe me music, this is forget me music  
This is who can love me you know, this ain't no roxy music  
This is new form music, this is old form music  
This is I paid attention not some makes his prediction music  
Oh, he could let me use it Oh, tomorrow's just a song away, a song away, a song away  
Oh, tomorrow's just a song away, a song away, a song away  
It's just a song away Well, not wanting to write a truthful song over an eighties groove  
I like to let you know I'll always be straight with you  
I stole my personality from an anonymous source  
And I'm gonna pay for it too, I don't feel bad about that  
Give me my chance back Well, this is on the rise music, this is novelty music  
This is who can blame music, I don't get fooled by it  
This is where d'you go music, this is come home music  
This is down to the wire I'm such a perfect angel music  
Who really tries Oh, and tomorrow's just a song away, a song away, a song away  
Oh, and tomorrow's just a song away, a song away, a song away Oh well, this is success music and what's it to  
ya?  
My lawyer always says these are the fact about the future, well Tomorrow's just a song away, a song away, a  
song away  
Oh, tomorrow's just a song away, a song away, a song away  
Oh well, tomorrow's just a song away, a song away, a song away  
It's just a song away
