Crazier

Gary Numan

The more I take a look inside, the more I'm fried
The more I understand the ride, the more I slide
The more you put me back in line, the more I tried
The more you looked into my eyes, the more you lied
I come back crazier, but feel much better
You come back crazier, you'll feel better
The more I disregard the signs, the more I fly
The more I walk across the lines, the more I glide
You come back crazier, but feel much better
You come back crazier, you'll feel better
You come back crazier, but feel much better
You come back crazier, you'll feel better
