Song Without Sin

Living Colour

Your more interesting when your lying
What ever your selling I ain't buying
If there's someone out their without
Let them cast the first stone
If there's someone out their without sin
We can all go home

I don't believe in what your preaching
And you can't council what I'm feeling
If there's someone out their without sin
We can all go home

Let's go out tonight
We can hide in plain sight
We can change our names, and never go home
And we'll never see the sun
If there's someone out their without it
Let them cast the first stone
If there's someone out there without sin
We can all go home

If there's someone out their without it
Let them cast the first stoned
If there's someone out there without sin
We can all go home
We can all go home
We can all go home
We can all go home
