

The Closing

Silverchair

Welcome to the closing
Not for love, what for?
It's easy to be taken
But to say
Come again, leave again
Waste of time, come again
I'm all alone while you're having fun
You have faith while I feel none
Sleep till late to waste half the day
But I'm happy to live this way
And I know that you can't see my pain
But you know that I can see your pain
Come again, leave again
Waste of time, come again
I'm all alone while you're having fun

You have faith while I feel none
Sleep till late to waste half the day
But I'm happy to live this way
Me and shame are the same
Me and shame take the blame
Me and pain are the same
Me and shame take the blame
Come again, leave again
Waste of time, come again
I'm all alone while you're having fun
You have faith while I feel none
Sleep till late to waste half the day
But I'm happy to live this way
Welcome to the closing
