

Perfect

Pixie Lott

Love your hair in the morning
You sneak a kiss without a warning
Don't go to work, stay in bed with me
We can lay, watch the tv
All day, being naughty
I fall asleep then I'll see you in my dreams
Aslong as I breath, I'm breathing for you
Aslong as I see, I'm looking for you
You don't even know how much you deserve it
You make it worth it
You make it all perfect
In your eyes, are the colours
That you hide, I discovered
Little things that blew me away
I love your voice, makes me shiver
And the chills you deliver
I wanna see your face everyday
Aslong as I breath, I'm breathing for you
Aslong as I see, I'm looking for you

You don't even know how much you deserve it
You make it worth it
You make it all perfect
You make it worth it
You make it perfect
You make it worth it
You make it perfect
You make it worth it
You make it perfect
You make it worth it
You make it
We can lay, watch the tv
All day, being naughty
I fall asleep then I see you in my dreams
Aslong as I breath, I'm breathing for you
Aslong as I see, I'm looking for you
You don't even know how much you deserve it
You make it worth it
You make it all perfect

(Make everything perfect)
