Try It On

Interpol

I need the sunlight
To keep me above
These moderations
I always hoped for
Did all this work for
Some peace of mindAnd just because on this side
You wanna see that
There's no change
Somewhere to stayWell, if you're right
I'll put my keys back
There's no change
And no hand to playPlease explore my love's endurance
And stay, stay
Please endure my love's exhortations
No way, no fucking way, noOn this side
You wanna see that
There's no change
And somewhere to stayOn this side
You're gonna see that
There's no change
Nowhere to stayOh, please, please try it on
Oh, please, please try it onOn this side
You're gonna see that
There's no change
And nowhere to stayBut if you're right
I'll put my keys back
There's no change
Nowhere to stay
There's nowhere to stayNowhere to stay
There's nowhere to stay
Nowhere to stay
There's nowhere to stay
Nowhere to stay
