

# Ricochet!

## Shiny Toy Guns

She's in your head Welcome back to where I'm gonna have you  
Shell shock, fall back, anyone I see through  
Watch your head spin like a mesocyclone  
Bouncing off the walls, now there's nowhere to run Like a bullet meant to be shot  
You're the target dead on the spot  
When I focus I never miss  
It starts with a kiss Let the sweat fall, find me in the back stall  
Let it snow down, now we're gonna deck halls  
I hit the bullseye making all the boys cry  
I hit the main line breaking through the night sky Like a bullet meant to be shot  
You're the target, dead on the spot  
When I focus I never miss  
It starts with a kiss Watch your head spin
