

Be Brave

Model 500

People are talking
Saying this and that
Don't know the real deal
Just leave it where its at, please

Why are they talking and playing silly games
Go find what the truth is, stop being so vain uh huh

Got to be brave
I bet you'll be brave one day
Got to be brave
I bet you'll be brave today

Now which was is 'up there'?
Stop sneaking out the door
Don't be no fool kid
Don't play yourself short, No
Live for the future and get what you can
Got to be brave boy we all have a plan, we're here

Got to be brave
I got to be brave today
Got to be brave(in time's of trouble)
I bet you'll be brave today(when your down and out)
Don't fall no

You look at the mirror
Who's that you're looking at?
You got to be you now
No threat in being that
Camoflauged your feelings
And put away you pain
Oh, then you go out there boy get back in the game playa

Don't ever let it get to you
Don't fall no
