What Is Love?

Vivian Green

Maybe I am foolishly in love with someone that is

Not exactly on the same page, that I am on

Well all my friends keep telling me stop walking round so blindly

But when he calls they're not around to ever remind meMaybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda wayI guess I kind of notice he don't always act so kindly

But that doesn't stop my hunger, hunger for his heart

Why should I listen to those, who think that I should move on

Maybe what they see as drama, I see more as artMaybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda wayCan't seem to get past how he makes me feel

May not be love but it feels so real

Can't go with what they say must follow my heart

But now is that even being to to meMaybe I'm happy, truly content

Maybe this is as good as it gets

Do I have faith in my confidence

Or an I just thinking all hopelessly Maybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love

But if it isn't love then really what is love

Maybe I don't need to know what's really love

'Cause when he's around he's got me feeling some kinda way
