

# 6 Months

## Hey Monday

You're the direction I follow to get home  
When I feel like I can't go on, you tell me to go  
And it's like I can't feel a thing without you around  
And don't mind me if I get weak in the knees  
'Cause you have that effect on me, you do  
Everything you say, every time we kiss  
I can't think straight but I'm okay  
And I can't think of anybody else  
Who I hate to miss as much as I hate missing you  
Months going strong now, and no goodbye  
Unconditional, unoriginal, always by my side  
Meant to be together  
Meant for no one but each other  
You love me, I love you harder so  
Everything you say, every time we kiss  
I can't think straight but I'm okay  
And I can't think of anybody else  
Who I hate to miss as much as I hate missing you  
So please, give me a hint  
So please, give me a lesson  
On how to steal, steal a heart  
As fast as you stole mine, as you stole mine  
Oh and everything you say  
Every time we kiss, I can't think straight  
But I'm okay and I can't think of anybody else  
Who I hate to miss as much as I hate missing you  
So please, give me a hint  
So please, just take my hand
