

World Go 'Round

No Doubt

In the quickness of our haste
It seems we forget how to live
The old blueprint
No longer manifests itself
As the correct way to exist So wipe the grime off the view hole
And please take a closer look
Environmental bandits
Up to their shenanigans
Crooks disguised We've got to find another way
To make the world go 'round We've got to find another way
To make the world go 'round Individual roles we think
Not so important to the plot
The big pictures unseen
Leaving life in between
Destroyed and overwrought There's no need to point the finger
We understand who takes the blame
Delinquents caught
Red-handed in the act
Crooks disguised as you and I We've got to find another way
To make the world go 'round We've got to find another way
To make the world go 'round We've got to find another way
To make the world go 'round Yeah, find another way You see there's many many many many
People in the world
And I'm not sure if I like
What I've heard
I'm not sure if I like
What I'm doing myself
I'm not sure if I like how it'll turn
How it turns Oh degradation
I mean violation
Inexcusable exploitation
It's the dawning of a new era
People consciously don't care
How unfair We've got to find another way
To make the world go 'round We've got to find another way
To make the world go 'round We've got to find another way
To make the world go 'round And yeah, find another way
Yes there is another way And find another way
To make the world go 'round

World go 'round
World go 'round You got to send me another way
And I'm putting this about haste people get
And I'm putting this about haste people get out to you
I'll find another way to make the world go 'round, world go 'round, world go 'round
