

We Built This City

Starship

We built this city
We built this city on rock and roll, built this city
We built this city on rock and roll, oh Say you don't know me, or recognize my face
Say you don't care who goes to that kind of place
Knee-deep in the hoopla, sinking in your fight
We got too many runaways eating up the night Marconi plays the mamba, listen to the radio, don't you
remember?
We built this city, we built this city on rock and roll We built this city
We built this city on rock and roll, built this city
We built this city on rock and roll Someone's always playing corporation games
Who cares, they're always changing corporation names
We just want to dance here, someone stole the stage
They call us irresponsible, write us off the page Marconi plays the mamba, listen to the radio, don't you
remember?
We built this city, we built this city on rock an' roll We built this city
We built this city on rock and roll, built this city
We built this city on rock and roll, built this city
We built this city on rock and roll, built this city
We built this city on rock and roll It's just another Sunday in a tired old street
Well, if you got the toco, oh, then we just lost the beat Who counts the money underneath the bar?
And who writes the wrecking ball in two wild guitars?
Don't tell us you need us, 'cause we're just simple fools
Looking for America, coming through your schools Marconi plays the mamba, listen to the radio, don't you
remember?
We built this city, we built this city on rock an' roll We built this city
We built this city on rock and roll, built this city
We built this city on rock and roll, built this city
We built this city on rock and roll, built this city
We built this city on rock and roll, oh
