Advance Cassette

Spoon

Getting caught's made me think it over

And it told me that you're never coming back here again

We've been doing things the same way for so long

That it took me abackBut I don't think III ever hear that sad song againNow don't tell me Ive lost you, advance cassette, oh no

I just can't believe it

No, don't say that Ive lost you, advance cassette, oh no

I just can't believe itAdvance cassette

Advance cassette

Advance cassetteYou'll know by the look on their faces when they pass you

You've been dropped off on the Texas highway

Ive been out here now for so long

That Im not sure how you wound me so tightIm afraid I won't ever hear that sad song againSo don't tell me Ive lost you, advance cassette, oh no

I just can't believe it

No, don't say that Ive lost you, advance cassette, oh no I just can't, can't, can't, can't, can't, can't believe it
