The Whipping Haus

William Control

Take off your clothes
Welcome to the Whipping Haus
Where we spend all our eveningsAnd we hurt those deceiving
And we're safe from the outside world looking in
And we're safe from the outside world giving inNow slow it down
I want the pain to last all night
And this chain faster wrap aroundAnd my shame falls unto the ground
Now we're safe from the outside world looking in
And we're safe I think the outside worlds looking grimIf you come tonight, you will find love
If you close your eyes, you will find loveIf you open your heart and just stay
The Whipping Haus trades sex for human slavesHere comes the end
All choked on vomit, sex again
Thank you for comingI want to thank you for coming
And we're safe from the outside world looking in
And we're safe I think the outside world's looking grim
