

# Memories of Time

Yamy

Time is running so fast  
This moment that you live  
Instantly everything is past  
You wonder where the time has gone When you were young  
You thought I can do that tomorrow  
But in moments the years have gone  
Feel that you are too old, now it's too late Live and make true all of your dreams  
When you are young  
Memories are gold when you are old Just memories of time  
Live forever over our lives  
They will see the future  
To the end of the time This little moment that we live here  
Don't let us waste it in vain  
Let's sail at full speed straight on Every single dream  
Is made to come true for all of us  
When we believe in future  
And what it will bring to us Look behind  
The curtain of world  
You'll see how beautiful all could be  
You take challenge of this wonderful life Live and make true all of your dreams  
When you are young  
Memories are gold when you are old Just memories of time  
Live forever over our lives  
They will see the future  
To the end of the time This little moment that we live here  
Don't let us waste it in vain  
Let's sail at full speed straight on Just memories of time  
Live forever over our lives  
They will see the future  
To the end of the time This little moment that we live here  
Don't let us waste it in vain  
Let's sail at full speed straight on Just memories of time  
Live forever over our lives  
They will see the future  
To the end of the time This little moment that we live here  
Don't let us waste it in vain  
Let's sail at full speed straight on
